

DRAWING AMENDMENT

Please replace the informal drawings submitted on filing with the attached set of 32 sheets of replacement drawings.

Explanation of changes: Sheets 1-31 have no changes and are a set of the original drawings with all sheets rendered in formal fashion by a draftsman. Sheet 32 is new and contains a new Figure 35, as requested by the Examiner. Figure 35 which shows the sealer module 400 with the cutting wire and shield in a deployed condition, as described with particularity on pages 26 line 19 to page 29 line 1.

No new matter is added to the application because Figure 35 is simply illustrating what is described in words in the above passage as to the lifting of the shield 416 and advancement of the cutting wire 402 and pad 414 through the opening 404.
